Bulletin Release: 04/Oct/2006

<u>XMU+ RoHS Control Card Compatibility Bulletin</u>

Product: XMU+ RoHS Control Card

PN#: 47082

Release Date: 31/May/2006

ECA #: 160514

Details:

The ROHS compliant control card (PN# 47082) was released to all markets in 2006. Due to differences with the RoHS components and thus differences in the design of this card, additional filtering was required to pass all relevant EMI/EMC standards. These filters have no effect on the performance of the XMU+ Chassis (released circa 2002), but renders the card incompatible on the older XMU Chassis. (circa 1995 - 2002)

Compatibility:

XMU Classic Control Card (PN# 27060) will work only in XMU classic chassis (large and small)
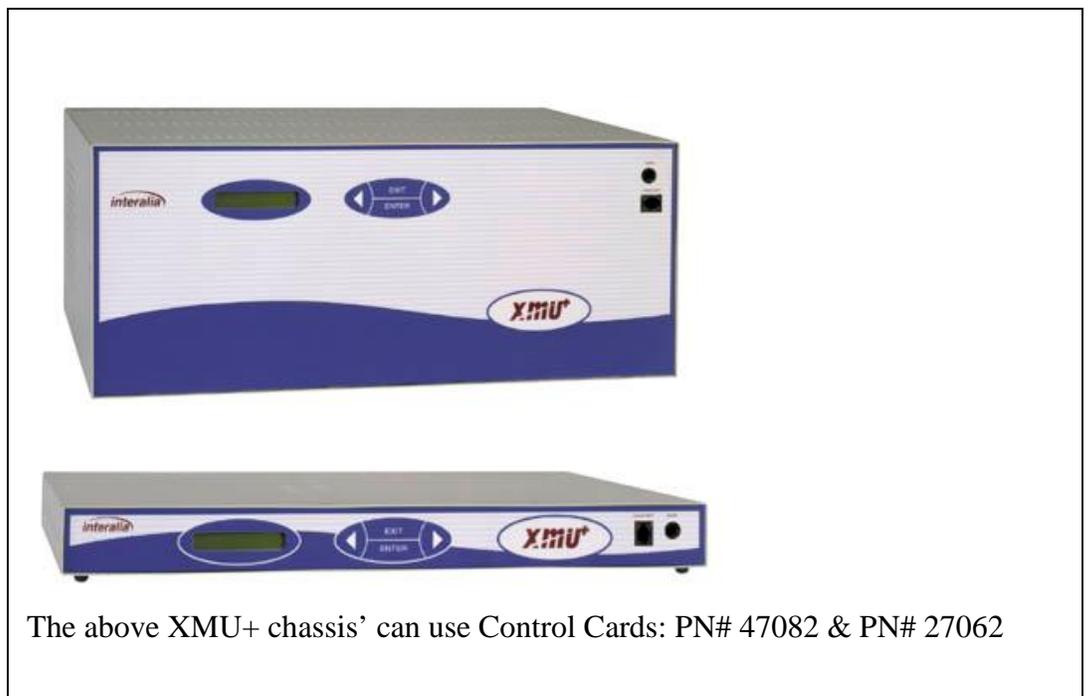

XMU+ Control Card (PN# 27062) will work in all chassis.

XMU+ RoHS Control Card (PN# 47082) will work only in XMU+ chassis (large and small)

Summary:

The above XMU chassis' can use Control Cards: PN# 27060 & PN# 27062

The above XMU+ chassis' can use Control Cards: PN# 47082 & PN# 27062
