# iProMOH-Mix™ with SAM (Simple Audio Mixer)

Music and Message Recording and Mixing Software

Interalia's iProMOH-Mix is the ultimate tool to record every announcement for your phone systems. Quickly record, review and save files that can be uploaded to your phone system, voice mail, IVR, hosted phone service, VOIP system or music-on-hold player. For music on hold productions iProMOH-Mix mixes your message playlist with music files to create a professional sounding production in just a few clicks.

iProMOH-Mix™ BENEFITS

- Simple User Interface to create your playlist

- Try Demo Mode before you purchase

- On-the-Fly Mixing – automatically fades music down when a message begins

- Adjustable Music Fade Levels – adjust the amount that the background music fades when the voiceover comes on

- Royalty free music included

- User Recordable – plug a microphone into your PC's sound card or use your PC's built in mic to record a new message at a moments notice.

- Easily add professional voiceover messages and music files

- Adjustable Message Intervals - set the amount of time between messages for your music on hold playlists

- Adjustable Music and Message Input Level - ensure matched input levels

- Preview your on-hold production

- Visual Recorded Status Bar - easy check of remaining recording time
